Section II—Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☒ **Time Extension Request**

Specific years requested 2002 and 2003

Is this a second request? ☒ No ☐ Yes Specific years requested.
(Note: Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ **Alternative Diversion Requirement Request (Not allowed for Regional Agencies).**

Specific ADR requested %, for the years .

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested %, for the years .

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

Artesia needs more time to meet the 50% goal because the City did not closely monitor program implementation. The City was not aware that programs were under performing and that modifications should have been made on a timely basis.

Incomplete monitoring of SRRE selected programs.

It came to the City's attention that C&D debris was generated in the City by third party contractors. These contractors failed to document the final disposal destinations nor did they recycle any of the C&D materials. This dramatic increase in C&D disposal negatively impacted the City's diversion rate. This motivated the City to initiate tighter permitting controls that are designed to monitor the flow of C&D debris.

The existing commercial program was on a voluntary basis only. The City in a proactive move, in co-operation with its franchise hauler have agreed to "dirty" MRF the City's commercial waste stream.

The lack of a residential mixed recycling program and the lack of a residential greenwaste collection program. The City in co-operation with its franchise hauler was able to fully implement these programs in November of 2000.

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

The public education component of the city's residential, source separated and co-mingled curbside recycling program for mixed recyclables and greenwaste has to be updated to reflect the current status with results of the success of the program from the start to now. Local cable television ads have now been created through RTA and will commence showing on a weekly basis.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

Artesia has implemented the programs outlined in its SRRE. The diversion percentage has steadily increased each year for the past five years. The city's current diversion rate 17%. Artesia has rolled out a dirty MRF commercial sorting and recycling program to enhance the diversion percentage with a focus on achieving the 50% goal.

The City in co-operation with its franchise hauler has implemented a fully automated residential curbside program along with an automated residential greenwaste program. These SRRE selected programs that were recently implemented in November 2000 are increasing diversion recycling within the City.

- 4. Provide any additional relevant information that supports the request.**
